

ADDENDUM NO. 1
October 7, 2019
224408

RE: TOWN OF ORWELL, VERMONT
ORWELL WASTEWATER TREATMENT FACILITY
LAGOON AERATION SYSTEM UPGRADES

FROM: DuBOIS & KING, INC.
25 Union Street
Brandon, Vermont 05733
(802) 728-3376

TO: Prospective Bidders

This Addendum forms part of the Contract Documents and modifies the original Bidding Documents issued by the Town of Orwell, for the Orwell Wastewater Treatment Facility Lagoon Aeration System Upgrades project dated September 26, 2019. **Acknowledge receipt of this Addendum in the space provided on Page 1 of the Bid Form.**

I. Questions & Answers

Question 1: Is any work required on the two 1 ½” CL2 Lines?

Answer 1: No.

Question 2: Is there a specified number of Calendar Days for completing the project?

Answer 2: No.

Question 3: What is being done with the existing aeration system?

Answer 3: The existing aeration system will be left in place.

Question 4: The plans and documents call for an isolation throttling valve for each aeration line that is not supplied by EDI – what are the specifications for the valve?

Answer 4: The isolation throttling valves shall be provided by the Contractor, and shall be a butterfly valve for air applications with a traveling nut actuator suitable for direct burial, Val-Matic or approved equal, submittal required. The Contractor shall also provide underground enclosures with watertight lids for access to operate and maintain the valves; the enclosures shall not have a floor; Quazite or approved equal, submittal required. The Contractor shall also provide stub laterals with a vertical flange face and bolts for connecting to the Owner-provided EDI piping, submittal required.

This document constitutes Addendum 1 for this project.
